PROFILE

Aspires to become a software and web developer after completing a bachelor's degree in Electrical and Electronics Engineering. Experienced with programming, IoT projects, and website development. Easily collaborates with others and works independently. Ability to multitask and stay calm under pressure.

PROJECTS

- 1. Home Automation using Voice Recognition using IoT:** With the help of this Internet of Things-based voice-controlled home automation project.
- 2. Smart Body Posture Corrector using IoT:** It is a smart technology practice kit that uses a sensor to teach us how to prevent hunchbacks.
- 3. Portfolio Website designed using Web development Tools:** A website that represents me like a web portfolio.
